

Related Entity Disclosure Statement

Reach For Your Potential owns and operates a childcare center, North Star Child Care Center, which is a separate program from the services seeking CARF accreditation. While the childcare center is not part of our CARF-accredited services, this ownership relationship means the organizations share governance and oversight at the organizational level. This relationship does not affect eligibility for services or the quality of services provided within our CARF-accredited programs. Some administrative functions are shared across programs. The North Star Child Care Center operates under separate licensing requirements.

We share this information to support transparency and informed decision-making for members, families, guardians, staff, and other stakeholders. The disclosure statement is in the Services Handbook, Employee Handbook, RFYP website, and in the Policy and Procedures Manual.
